

**Question from Eggli Brothers:**

**Question:**

The trim details reference drawing A811 but I cannot find it on the list of available drawings. Please advise.

**Architects Answer:**

Question is not clear as to where the reference is from or specifically what trim they were asking about, however there is not a Sheet A-811. Trim details for millwork trim, if that is the question, are shown and detailed on Sheet A-850.
